

Examples of traditional canopies in use in 2013

Above & Below: The shops on the left of each of the photographs show traditional canopies 'closed' – you can see that they are flush with the shopfront. The shops on the right show the canopies open.

The Café above has integrated, traditional canopies – they come out in the same way as the Butchers canopy to the left. You can see how they are integrated into the shopfront and do not stick out like the canopies at 794 Govan Road.
